F-Erase

What's New in the F-Erase?

Remove unused files from your Windows hard disk to free up space and speed up your PC. Rationale: In the long term, deleting old files will make your computer run faster. In the short term, deleting old files will make your computer run faster! Features: F-Erase deletes useless files from a drive letter (including C:) and unloads unnecessary files to make your PC run faster. F-Erase runs in the background to clean up the computer automatically. F-Erase is free and easy to use. F-Erase has only one configuration file that is easy to edit. F-Erase supports safe file deletion (select files for deletion). F-Erase supports unattended, automatic, remote file deletion. F-Erase is more secure than the standard "delete" command. F-Erase is useful for file cleaning in safe mode, where there is no "delete" command. F-Erase can clean multiple hard drives in a single operation. F-Erase can rename files (if desired). F-Erase has a batch file mode and supports unattended, automatic, remote file deletion. F-Erase supports safe file deletion (select files for deletion). F-Erase supports zero-free (only the disk is freed up, the space is not released). F-Erase supports transparent (cleanup of all hard drives, including other disks). F-Erase can remove files in several ways: Hard link removal Directory removal File type removal (rar, exe, etc.) Directories that have both empty and non-empty files Text files Images Folders

What's New in Version 1.5: Added support for sparse files. Added the ability to lock files, which prevents anyone from deleting or renaming them. Added support for custom mappings. Added support for system restore. F-Erase is freeware and you are free to distribute to whoever you want as long as the program, read me, batch and what it deletes files are not tampered with and are included within the zip. Please do not play around with the drive letter and username as your PC may get damaged. Screenshots (0) Comments (0) Files32.com collects software information directly from original developers using software submission form. Sometimes it can happen that software data are not complete or are outdated. You should confirm all information before relying on it. Using crack, serial number, registration code, keygen and other warez or nulled soft is illegal (even downloading from torrent network) and could be considered as theft in your area. Files32 does not provide download link from Rapidshare, Yousendit, Mediafire, Filefactory and other Free File Binaries websites. The software has been submitted
